ADAPTER ATTACHMENT PROCEDURE

ADAPTERS 122134, 122140, 122145, 122145-1

Adapter No.	Nose Style	Tool Style
122134	99-1720's	246
122140	99-1700's	230
122145	99-1700's	2480
122145-1	99-1700's	202, 244, 2012

Please note the following procedure when attaching the above listed Nose Assembly Adapters to a Tool:

1. Connect the air supply to ensure that the piston is in the full forward position. Then disconnect the air supply before proceeding to step 2.
2. Attach Drawbar Adapter to Tool Piston. Tighten.
3. Using the Tee-Wrench, reach through Piston and back up Lockscrew Assembly all the way.
4. Attach Anvil Adapter to tool. Tighten.
5. While holding Anvil and Collet together, screw Nose Assembly to Tool as far as it will go.
6. Back up the Nose Assembly to the first desired orientation.
7. Screw in Lockscrew Assembly against the Nose Assembly Drawbar using the Tee-Wrench. Tighten. This will lock the Nose Assembly in the desired orientation.

(TEE-WRENCH NOT SHOWN)
