MARKET RELEASE

254
PNEUDRAULIC INSTALLATION TOOLS

Introducing the new 254 tool from Alcoa Fastening Systems. In response to market feedback and demands, the 254 tool is even more ergonomic and offers greater capacity at a lighter weight than the 255 tool.

- **Installs up to -12 LGP/RXL/ALC/ALP fasteners**
- **Ergonomic two-finger trigger**
- **Field-serviceable floating handle sleeve**
- **One piece intensifier piston with increased internal hex size**
- **New throttle arm guard to improve safety and help to prevent debris from entering the throttle valve**
- **Minimum stroke: .565 inches** *(1.43 cm)*
- **Minimum pull capacity:**

  8,620 lbs *(38 kN)* **@ 90 psi** *(6.2 bar)*

  9,500 lbs *(42 kN)* **@ 100 psi** *(6.9 bar)*
